Coming: Transformation - Manawatu

How does it work?

- The NASC (or funding agency) allocates funding to the person
- The person employs/contracts support staff or services
- The person sends timesheets and/or expense claims to the host agency (e.g. Manawanui)
- Manawanui pays the staff (or the person) and then invoices the Ministry of Health
- **The person is the decision maker around how and who delivers supports, within guidelines**

Host Provider Role

- Coaching to get the person/family set up as an employer
- Budgeting and employment advice and support
- Ongoing monitoring of expenditure
- Invoicing the funder for expenditure
- Reporting to the person on their status
- Reporting to the funder
